LEA & PERRIN'S
CELEBRATED
Worcestershire Sauce.
DECLARED BY CONNOISSEURS
TO BE
THE ONLY GOOD SAUCE

CAUTION AGAINST FRAUD.

The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to

ASK FOR LEA & PERRINS' SAUCE

and to see that their names are upon the wrapper labies stopper, and bottle.

Some of the foreign markets having been supplied with a spurious Worcestershire sauce, upon the wrapper and labels of which the names of Lea & Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against Manufacturers and Vendors of such, or any other imitations by which their right may be infringed.

Ask for LEA & PERRINS' Sauce, and see Name on Wrapper, Label, Bottle and Stopper.

Wholesale and for Export by the Proprietors, Worcester; Crosse & Blackwell, London, &c. &c.; and by Grocers and Oilmen universally.
To be obtained of Messrs Janion, Green & Rhodes.
ja15 1y 1aw.

Bett's Capsule Patents

TO PREVENT INFRINGEMENTS, NOTICE IS HEREBY GIVEN, that BETT'S NAME IS ON EVERY CAPSULE he makes for the principle merchants in England and France, thus enabling vendor, purchaser and consumer not only to identify the genuineness of the Capsule, but likewise the contents of the vessel to which it is applied. The Lord Chancellor, in his judgment said that the capsules are not used merely for the purpose of the ornament, but that they are serviceable to protecting the wine from injury and insuring its genuine

my29

HOLERA' AGGUE, COUHS COLDS, &c.
DR J. COLLIS BROWNE'S (Ex Army Med Staff)
CHLORODYNE,
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE: that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely and mean no other than Dr Browne's—See TIMES, July 12 1864

The Public therefore are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne,
REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep relieves pain, calms the nervous system, restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera Dysentery, Diarrhœa, Colics, Coughs, Asthma, Cramp, Rheumatism, Neuralgia, Cough, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS

The Right Hon Earl Russell communicated the Coltoene of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet, Dec 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when other medicines had failed."

Dr Lowe, Medical Missionary in India, reports [De 1865] that in nearly every case of Cholera in which Dr Collis Browne's Chlorodyne was administered the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the General Board of Health, London, to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases.

Beware of spurious and dangerous compounds sold as Chlorodyne from which frequent fatal results have followed.

See leading article, Parmaceutical Journal, Aug 1, 1869, which states that Dr J Collis Browne was the inventor of Chlorodyne that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION—None genuine without the words 'Dr Collis Browne' on the Government stamp. Overwhelming medical testimony accompanies each bottle.
Sole Manufacturer, J T DAVENPORT,
33 GREAT RUSSELL STREET, BLOOMSBURY, LONDON
Sold in Bottles, 1s. 1½d., 2s. 9d., and 4s. 6d.

Notices.

BOARD OF EDUCATION—NOTICE

PARTIES DESIROUS OF OBTAINING the necessary Certificates of Qualification for appointments as Teachers in this Province under the "Public School Act, 1872," are notified that the Board are now prepared, at the Education office, Government street, to examine them and receive their testimonials.
On or about the second Tuesday in July next, all then existing vacant teacherships in schools taught under temporary arrangement will, as far as may be practicable, be supplied with teachers selected by the Board from those who shall have become duly qualified by certificate obtained as above.
Applicants for teacherships holding certificates from any duly qualified body, will be granted certificates from the Board without examination, should the certificates presented by them be satisfactory to the Board.
By order of the Board,
JOHN JESSOP,
Superintendent of Education.
Victoria, B.C., May 16, 1872. my17 2mdxw

Dentistry.

C. FRANCIS BARNARD, MD.
SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth: he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets, the best vulcanites of the last 25 years.
We cheerfully add Dr. B's Card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.
Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.
The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.
OFFICE AND RESIDENCE—Douglas Street, between Dr Powell's premises, and Willson's Tea Store. Business hours from 8 a m till 5 p m.
Victoria, Nov 4, 1871. de5 d&w1s

Mills Bowden,

DENTIST,

Card of Thanks to Dr Chong.

AFTER BEING TREATED FIVE MONTHS by a white doctor, and spending nearly $300, I was worse than when I first went to him. I had quite despaired of being relieved when I read Dr Chong's Card in THE COLONIST. I placed myself under his care and in NINE DAYS I was a well man. I write this card to discharge a debt of gratitude I owe to Dr Chong, which charge, I may also say, was reasonable. My complaint was neuralgia. WILLIAM MCCORMICK.

The Federal Elections.

Canadian exchanges come to us filled with matter designed to influence the coming elections and articles speculating upon the results. As usual in such cases, both parties profess to be quite confident of winning. With the *Grits* it appears to us, looking at the matter from a distant and more impartial standpoint, to be a case of whistling to keep their courage up. It is, indeed, difficult to understand upon what they can base their hopes of success, What public question is there upon which they can join issue with the most remote prospect of defeating the *Government*? They selected two during the late session,—the Treaty of Washington and the Pacific Railway; but upon both of these the *Government* were sustained by large and ever increasing majorities. If the country should not sustain the Government, too, upon these questions then must the members have singularly misread public sentiment; for they could not be supposed to be indifferent to public opinion, much less run counter to it, on the eve of a general election. The Montreal *Gazette*, a moderate and well informed paper, has an article upon the subject, in which the relative strength of political parties in all the Provinces is carefully, and as it appears to us, faithfully reviewed, and the probable result summed up. According to it the new Parliament will give the Sir John A. Macdonald administration a larger following than the old. In Nova Scotia and New Brunswick the Opposition is said to be losing ground, In Quebec the Government may hope to carry forty-five out of the sixty-five constituencies. British Columbia and Manitoba cannot do more in the new Parliament than they did in the old. They are not likely to do less. It is in Ontario that the great battle is to be fought, Out of the eighty-eight members to be elected in that Province the *Grits* are good enough to concede twenty-five to the Government. The article before us gives the Government a handsome majority even in Ontario; and it supports its opinion with what appears to us to be good, sound reasons. Many had been led to fear that the advent of the Grits to power in that Province would react unfavorably upon the Ministerial cause; but our Montreal contemporary thinks the reverse. Out of power the Grits made great swelling promises. In power they have disappointed those who were redulous enough to attach any importance to these promises, and they have, consequently, lost ground by gaining office. This looks reasonable. We hope it is true Then, again, there is to be considered the quandary in which Messrs Blake and Mackenzie have been placed by the dual representation question. Can they become candidates for the Federal Parliament without first vacating their seats in the Provincial? Costigan's Bill would appear to say no. In any case they cannot, with success and satisfaction to the country, hold on to office at Toronto and contend for office at Ottawa. They will be compelled, even if the law does not require it, to stick to one seat, or they will assuredly sooner or later fall between the two. Altogether, the political horizon looks hopeful.

The Relative Value of Coal.

The United States Government advertise at San Francisco for the delivery of coal for Government use during the current year, as follows:—10,121,250 pounds Rocky Mountain coal; or 10,523,600 pounds Mount Diablo, or 10 523,600 pounds of Coos Bay, or 9,719 400 pounds Seattle, or 8,906,700 pounds Bellingham Bay, or 7,287,050 pounds Nanaimo. From these figures it would appear that the Nanaimo coal (including, of course, that from the Wellington mines, Departure Bay) is very much better than coal found in United States Territory on this coast,—thirty per cent better than some of it, and nineteen per cent better than the best of it. It is rather more than probable that the demand will be supplied from our mines, the product of which is growing steadily in favor in San Francisco. The reduction of American duty by fifty cents a ton will also operate in our favor.

THE ONLY COMPLETE BOOK-BINDERY NORTH OF SAN FRANCISCO.—The undersigned is prepared to turn out a superior class of work. Magazines, Newspapers, etc., etc., bound with dispatch. The most difficult forms of Ruling done. Cheques or Receipt Books numbered and perforated. Charts or Maps mounted on linen, suitable for the pocket: and Drawing Paper mounted by the yard or in sections.—ROBT. T. WILLIAMS, at Messrs T. N. Hibben & Co's. *

HOLLOWAY'S PILLS AND OINTMENT.—, Scurvy and diseases of the Skin—Fever treatless sleep, foulstomach, tainted breath langour, depression of spirits, always attendent on the worst cases of cutaneous-eruptions, are speedily and radically removed by these medicines—the Ointment cleanses the skin, and the Pills purify the blood, stimulate the liver, and promote digestion 25 cents per pot or box.

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hote and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits. *

NEW FURNITURE, ETC.—By the last steamer Jacob Sehl, Government street, received a large addition to his stock of furniture, mirrors and fancy goods, including elegantly carved rustic frames and ornaments. *

Card of Thanks to Dr Chong.

AFTER BEING TREATED FIVE MONTHS by a white doctor, and spending nearly $300, I was worse than when I first went to him. I had quite despaired of being relieved when I read Dr Chong's Card in THE COLONIST. I placed myself under his care and in NINE DAYS I was a well man. I write this card to discharge a debt of gratitude I owe to Dr Chong, which charge, I may also say, was reasonable. My complaint was neuralgia.
Victoria, Aug 26th, 1871. WILLIAM MCCORMICK.

Political.

To the Electors of Victoria District,

Including Victoria City, Victoria District, Esquimalt and Metchosin:

GENTLEMEN,—In a short time you will be called upon to elect two members to represent you in the House of Commons, and as many Electors have expressed to me a desire that I should offer myself as a candidate for that honorable position, I now solicit your suffrages, assuring you that, if elected, no effort on my part shall be spared to advance your interests at Ottawa, or to assist in legislating for the advancement of the whole Dominion. Politically I am in favor of giving a generous support to the present Canadian Administration, and should strongly advocate the national importance of the Railroad being terminated at Esquimalt. I should urge the establishing of a Quarantine Hospital at once; the opening of an Immigration Agency at Victoria, the building of a Lighthouse at the entrance to, and the dredging of Victoria Harbor. I should endeavor, if necessary, to obtain an increased guarantee for the Dry Dock, and should point out the benefits and importance of completing the Railroad from the Pacific to Lake Superior (at east) in the shortest possible time From present information upon the subject it appears there is little prospect of both Houses being in session this year at the same time, but should it prove otherwise, and should I be elected to the Commons, I should feel in honor bound (although with great reluctance) to resign my presen seat in the Local House, and enable another representative to take my place.

I remain respectfully your obd't servant,
je29 ROBERT BEAVEN.

A CARD.

A REPORT HAVING BEEN CIRCUlated that if elected to the Commons I intend permanently leaving this Province, I wish distinctly to state that there is not the least truth in any such report, my intention being to remain a resident of this Province whether elected or otherwise.

ROBERT BEAVEN,
1872. je30 1wd&w

Electors Victoria District.

INCLUDING Victoria City, Victoria District, Esquimalt and Metchosin:—By the local papers of to day I see that there is a third "Richmond in the field" to represent us in the Commons Parliament. Would it not be well, before we give the cold shoulder to our present representatives, (who, I believe, have faithfully served us) not to listen to any new love until we have had an account of the stewardship of our present members.

Biding the time.

I remain yours faithfully,
June 29, 1872. AN ELECTOR.

MR. NATHAN, M. P.

This gentleman will be a Candidate for re-election to the Commons for Victoria City

Washington Territory.

An old settler on Whidby Island, H. B. Lovejoy, died of heart disease on the 6th inst.

The Seattle *Intelligencer* understands that the stmr. California will hereafter bring freight from San Francisco to Victoria, and cause it to be delivered at any port on Puget Sound, without extra charge, for $4 40 per ton.

At the Seatle municipal election last week only 175 rate-payers felt sufficient interest to record their votes. This does not augur well for the civic administration of that city.

The Olympia *Tribune* says:—Coal from Seattle is being largely shipped to San Francisco. The company expect to supply that market regularly, running about 130 tons a day to their wharf at Seattle. By the cargo, it brings $11 per ton. During the half year beginning Jan 1st, and ending June 30th, the exports to San Francisco were 5,552 tons. The company have now under charter seven vessels to take cargoes to San Francisco—aggregating a total carrying capacity of 5900 tons. It is expected that the yield of coal from this new mine during the year 1872 will be fully 10,000 tons, and that next year that quantity will be increased one-half and perhaps doubled.

The same paper says: At Bellingham Bay the coal mine is not yet in operation. It was confidently anticipated that before this time several thousand tons of coal would have been mined, and two vessels were sent there to take a portion away. The ship Germania after laying there three weeks, on Monday evening was towed out by the S. L. Mastick, and taken to Nanaimo, where she will load The bark Amethyst has been lying in the Bay for more than a month, waiting a cargo, and is there now. The Bank of California must long ago have found the Bellingham Bay coal mine an unprofitable investment.

The Greeleyites, at Olympia, fired a salute on learning the news of the Democratic nomination.

Bush fires are becoming very bad on Puget Sound, and it is feared that, should the weather continue dry, the country will be devastated for hundreds of miles.

At Kalama and on the way there are 60 miles of railroad iron, enough to build the road into Olympia, and have a few miles of iron for side tracks, &c.

CRICKET — MARRIED VS SINGLE. — This match came off yesterday afternoon at Beacon Hill. Great interest was manifested in the issue of it, this being the conquering game. In the first innings the bachelors had the advantage by 27 runs, though they played with 11 men against the married with 9. In the second innings the single men had made 174 runs for some 5 wickets. annexed is the score:

FROSTBITTEN.—The Portland Oregonian says:—"The Portland public have certainly not forgotten Mrs J B Frost, who was lecturing through the State last fall. It is also fair to suppose that the people of Victoria have occasion to remember the same lady for sundry reasons—principally financial. Speaking of this lecturess, a San Francisco exchange says: 'What this lady does not know about railroading is not worth knowing. When she arrived in town, week before last, she frankly admitted she was not prepared to lecture on that subject, as she had not then given it attention. Since then she has turned the full powers of her mature mind upon this subject, and need we say that she has mastered it? With a public spirit possessed only by professional lecturers, she immediately made arrangements to impart her newly acquired knowledge to the public at 50 cents a head.'"

IMMENSE TRAVEL.—Lieut. Diggle, R.N., writes from New York City to say that on his arrival at that port he found the main accommodation of all the steamships engaged two weeks ahead. There was never so great a demand for passages to Europe as this season. Under the circumstances Lieut. Diggle proceeded to Quebec to take passage by one of the Allan Line of steamships.

SIR JOHN A MACDONALD'S ON THE WASHINGTON TREATY.—The great speech of Sir John A Macdonald, Premier of Canada, on the Washington Treaty has been issued in pamphlet form. We are indebted to Mr Nathan, M. P., for a number of copies which may be had at THE COLONIST office. *gratis*.

THE Medina (Ohio) Gazette publishes the following unique advertisement:—

U. S. GRANT. HENRY WILSON.

GRANT & WILSON,

TANNERS AND SHOEMAKERS,

Washington City, D. C.

New Firm—Enlarged Business—Its Elements of Success are Honesty, Energy, Experience and Popularity. References: The People of the United States.

P. S. REAL ESTATE AGENCY.—A Mackintosh, Esq., of Seattle, W. T., has opened a Real Estate Agency at that city. Parties in British Columbia who own real estate at any of the Sound towns would do well to employ Mr Mackintosh to guard their interests. See the advertisement.

Interesting from Bute Inlet

ENCOURAGING OPINION OF THE ROUTE.

The Boxer started from Esquimalt at noon on the 6th with Messrs O'Reilly, McMillan and Anderson—the two latter for the Bute Inlet Survey—and Constable Evans, to accompany Mr O'Reilly through the Chilcoaten country; touched at San Juan, and after a fine passage anchored off Camp Y., Stuart Island at 9:30 a.m. on the 7th. As it was Sunday they were all in camp and soon came on board for news. The survey was progressing favorably, and all hands well except one man who came on board to have a tooth extracted. They had had no sport except eagle shooting—one bird shot measuring 7 feet from tip to tip; have plenty hard work, but live high, venison, salmon and berries being very plentiful. After visiting the camps we started for Waddington Harbor and anchored at 9 p.m. The snow was much melted and the river a good deal higher, running very strong and getting stronger every day.

On Tuesday Mr O'Reilly started to go up the river, but, on arrival at the depot, the Indians refused to go any further, saying that the water was too stormy. They were a lazy lot—evidently the refuse of the tribe (Klahoose), and struck work whilst returning on board, because Mr O'Reilly called them idle, but on being *forcibly* reasoned with they eventually did fetch the ship, minus one man who managed to jump ashore and run. The next day the whole tribe came down bringing Mr Smith with them and refused to work on the river any more, saying that it was too strong. The fact was they were satisfied with what they had got and were too lazy to earn any more. However, on Thursday we steamed down to Camp Y. again to get other Indians, and succeeded in obtaining 3 canoes and 20 Indians (Ucletah's) for $1 per man per diem and "muc-a-muc," instead of $1 50 as the others got. They seemed a much brighter and more willing lot, but they had no river canoes. However, it is to be hoped that they will give more satisfaction than the Klahoose did.

On Friday, left Stuart Island at 11 o'clock and steamed up to Waddington Harbor again. These Ucletah's are good Roman Catholics and went to Mass on board for about half an hour. Stopped twice on the way up to search Klahoose canoes on the way down, to see what they had looted, and found several axes, camp kettles, &c., which we recovered. Anchored at the head of the Inlet at 6 o'clock, and sent the canoes on shore, we having towed them up. After dinner, Mr. O'Reilly, Mr. Smith and some of the officers landed to see the former off. At 11, they all returned, and we weighed at midnight and steamed down 'Homeward Bound.' Called in at Departure Bay at 8 p. m., but found no one there, so we could not coal Anchored in Otter Bay at 8:30 p. m. and started for Esquimalt at 3;30 a. m. this morning (14th).

Mr. Smith seems very sanguine as to the feasibility of bringing a railway down by that route, ferrying down Nodales Channel, between Thurlow and Valdez Islands, but of course there is a good deal to be explored yet. At the scene of the massacre everything was found as the poor fellows most likely left it, shovels piled up all ready for work, crowbars, a few clothes, and a woman's boots and a stocking, the latter articles most likely belonging to the cause of the tragedy.

Mr. Ross, at the Bute Inlet Depot, had several books belonging to Waddington's party, which were brought him by some of the Indians. The mules were not used, as the road was only good for 9 miles, after that being constantly broken by mountain streams which have carried the bridges away. One of their best men has had to leave the Y party for some disturbance with an Indian, which will be rather a loss to their party. W and X parties had been together up to time of our arrival, and have only just separated. Tiedeman as usual 'pushing on'; Gainsby working down towards the mouth of the Homathco.

Yesterday we had an interview with Mr Marcus Smith, Chief Engineer of the Pacific Division of the Railway Survey. Mr. Smith surveyed through the Canon of Homathco in one week's time and found it quite practicable for a railway line. Only from 3000 to 4000 feet of tunnelling will be required. It will be remembered that this canon was the bugbear of poor Waddington's expedition. Waddington's road was grown over with underbrush and covered with fallen trees to an extent that renders it almost indistinct. Parties of axemen were set at work to cut away the obstructions so that the trail may be made available for communicating with and supplying the surveyors. The bridges Waddington built around the bluffs had been swept away and other bridges were found to have been burned. The Homathco river is at its height and the current is very swift—Mr. Smith, in coming down the river in a canoe, made 25 miles in two hours. In going up he was a week making 32 miles. At Murderer's Camp, where the massacre took place, were found numerous traces of the tragedy. Even the shovels the murdered men had used the night before the massacre, were found arranged in order for use on the following day, which, alas! for all but two of the party, never dawned.

The Indians are lazy and troublesome, but not at all warlike in appearance. Mr O'Reilly has gone on with Mr Teideman's party and has full power to treat with the Indian chiefs. Mr Gainsby's party are working from the Canon towards the head of Bute Inlet. Mr Michaud's party are preparing to take soundings. The work was progressing so satisfactorily that Mr Smith will immediately ascend the Fraser to Fort Alexandria, whence he will cross the Chilacoten Plains to meet Teideman's party on their way up. The same side of Homathco River as that selected by Mr Waddington for his road has been adopted by Mr Smith for the survey. With respect to the difficulties to be overcome from the head of Bute Inlet to its entrance, and thence to this island no opinion can be formed. The expense will, of course, be very great; but the canon bugbear having been dispelled by the survey we may hope to see the Seymour Narrows and the "eternal snow-capt hills" speedily overcome by the same potent agency.

QUARANTINE.—The matresses and blankets from the quarantine ground were carted across James Bay yesterday for storage. Hall and Hunter, discharged from the Pesthouse, will be put in Quarantine to-day, and remain there until all danger of infection shall have passed away.

COLLEGIATE SCHOOL.—The annual distribution of prizes will be made by the Bishop of Columbia at 2 o'clock this afternoon. Parents and friends of children, and the public generally are invited to be present.

F. B SOCIETY PIC-NIC.—The tenders of Mr Harry Forman for liquors, and of Mr Joe Levy for refreshments have been accepted.

THE brig Robert Cowan, laden with coal from the Wellington mine, sailed for Honolulu yesterday.

Steamer Departures.

THE Isabel left at 7 p.m. yesterday, for Nanaimo for a load of coal.

THE California having repaired her machinery left yesterday afternoon for Portland direct.

THE Sir James Douglas leaves at 7 a.m. to-day for Nanaimo.

THE Enterprise leaves at 10 a.m. for New Westminster.

THE North Pacific leaves at noon to-day for the Sound.

THE Otter will probably leave for Skeena on or about Friday next.

HONDURAS SHIP RAILROAD.—A short time since the newspapers noticed a project for a ship railroad across Honduras, by which vessels were to be transported from ocean to ocean, to save the long journey round Cape Horn. A most flattering prospectus was issued professing to show that for an outlay of $75 000,000 the fortunate stockholders were yearly to net $50,000 000. The London *Economist*, a financial journal took occasion to prick this bubble, and it burst. The latest accounts state that the promoters, finding it difficult to obtain subscriptions, have deferred their project till a more convenient season.

MR. BULL'S LECTURE.—We were glad to see last evening a large audience present at the Mechanic's Institute, who listened with marked attention to Mr. Bull's lecture 'Seven Months amongst the Islands of the Pacific' Some captivating stories were told in an easy, conversational style; and a description of the Islands and the inhabitants, and their mode of life was deeply interesting. Amongst the audience were his Excellency the Lieut-Governor and family.

THE inhabitants in the vicinity of the new Hospital, complain that the drain from the dissecting room, bath-room, etc., will communicate with a cesspool so situated that it will poison all the wells lying in the valley south of the Hospital. This complaint should be heard. If true, there will soon be a greater number of patients outside of the Hospital than inside.

DRILL.—There will be a drill of the Tiger hand and steam engines this afternoon, under the superintendence of the retiring Foreman, T. J. Burnes.

FROM THE SOUND.—The North Pacific arrived from the Sound at 1 yesterday with an Overland Mail and Express, about 25 passengers, 32 head of horned cattle, a horse and a good amount of freight.

ADVANCING.—Advices from San Francisco state that goods of all kinds are advancing. Even coffee is higher than before the duty was taken off.

RUMOR has it that one of the gunboats will be dispatched to restore quiet at Skeena River.

THE decision of the illustrious arbitrator in the San Juan Island case is expected in September.

THANKS to T. N. Hibben & Co, for copies of late papers received overland yesterday by the North Pacific.

DISINFECTANTS.—This term is applied to several substances. A disinfectant which may be useful in one case is worthless in another; hence a knowledge as to the properties of every disinfectant is useful. There is not a universal disinfectant, such as all the venders of disinfectants would wish the public to believe. For the destruction of germ diseases, such as small pox and cholera, carried from one to another through the air, the best disinfectant is chlorine; but although Parliament voted £500 to Dr Carmichael Smith for this discovery, it is not used as it ought to be at the hospitals. A useful form of generating chlorine slowly, and evolving it into the atmosphere in minute portions, is to make a mixture of two parts of common muriatic acid with one part of common nitric acid; then add gradually sulphuric acid until chlorine and euchlorine is evolved. This will be known by the darkning of the fluid, and its steady effervescence, owing to the escape of the disinfecting gas. This mixture, under the name of "Everlasting Chlorine," was shown at the first Exibition in 1851. Nothing has yet superceeded it. A mixture of sulphate of iron and lime is the best disinfectant for cesspool and closet. The oxide of iron at once combines with the sulphuretted hydrogen, and all offensive odour ceases. Carbolic acid is useful for gangreneous wounds, but it has no value to deadorise a stable or the latrines of railway stations; on the contrary, it increases the evil. The real efficient remedy would be to mix about ten per cent of muriatic acid in the water-tank; then as the water flows, the acid would constantly combine with ammonical gases evolved. Pericanganate of potash, known as Condy's Fluid, is the best disinfector of bad water. A few drops of it will combine with the organic matter and render the water pure. Filtering water through fresh charcoal will also disinfect it; but the evil of ordinary filters is that the water of to-day or to-morrow runs through or over the impurities previously left behind. Earth is a fine disinfectant; when the dog buries a bone, he gives a lesson which man would do well to follow.—English paper.

Lost Health Regained.

Self-neglect lays the foundation of much bodily suffering. As a rule men are more solicitous to repair and preserve their houses, stock in trade and other perishable property than to repair and preserve themselves. They can see when a wall requires a prop, or a weak structure a girder, but appear to be unconscious of, or indifferent to, the cracks and flaws and evidences of decay in their own frail and sensitive organizations.

The consequence of this want of common prudence is that thousands fall by the wayside in the prime of life every year who might have lived to enjoy a hale and hearty old age, if they had resorted to the proper means for recruiting their failing vigor at the proper time.

Seeing what that famous vitalizing and invigorating elixir, Hostetter's Stomach Bitters, has done for countless multitudes of the enervated and broken down, and with the long, unbroken record of its cures before him it seems amazing that any sufferer from premature decay, nervous weakness dyspepsia, biliousness, chronic constipation, or disease of a remittant or intermittent character, should delay, even for an hour, to seek the aid which its toning, regulating and invigorating properties have never failed to afford.

It is no exaggeration to say that Hostetter's Stomach Bitters is the most faithful ally of nature, in her struggles with weakness and disease, that medical botany and honest chemistry have yet given the world.

LEWIS LEWIS, Clothier and Outfitter, Yates street, opposite the Bank of British North America, received by the California a large invoice of Clothing and Furnishing Goods Hats and Caps, etc, all of the latest fashion and which he is selling at very low prices. *

REMEMBER THE FATE OF ABSALOM.—Fred Payne, Tonsorial Artist. Shaving 12½ cents hair Cutting 25 cents, Shampooing 25 cents, Hot Original Cheap Shaving Shop stands at the sunny side of Johnson treet. *

The Adjutant General.

EDITOR BRITITH COLONIST:—In to-day's *Standard* appears a letter animadverting on the recent appointment of a Deputy Adjutant General for this Province and signed 'Volunteer.'

As it may very likely be supposed that the writer of this letter is a member of the volunteer force of this Province, I wish, in your columns, to express my very decided opinion that this is not the case. The volunteer force of British Columbia may not be a very highly disciplined body; but, at all events, the members of it have sufficient notion of their duty as to refrain from criticising the appointment of a superior officer in the newspapers. Your obedient servant,

F. J. ROSCOE.

VICTORIA, July 15th, 1872.

The Land Pirates.

EDITOR BRITISH COLONIST:—I see by your paper that the two land pirates are still at large and committing wholesale depredations on the settlers in the outlying districts. I observe that only $250 is offered by the Government for their apprehension. It is not sufficient. The reward should be at least $250 for each man. If Mr Bowden and one or two of his force were ordered to hunt these fellows up I feel certain that they would have the pirates in custody within a week from the time they went in pursuit of them. It is a disgrace to the country to allow two ruffians to be at large as long as the have been. Why did not the magistrate at Burrard Inlet have them apprehended before they left that port? Had he done so, the poor settlers on the coast would not have been outraged as they have been. The Magistrates may say "We are not paid to look after robbers." Perhaps not; but you, gentlemen, who accept the honor of the appointment ought to take upon yourselves the responsibilities of the office.

SETTLER.

VICTORIA, July 15, 1872.

Letter from Bute Inlet—Relics of the Waddington Massacre.

BULE INLET, July 6th, 1872.

EDITOR COLONIST:—'The eternal snow clad hills of Bute Inlet and the fertile valleys of Cowichan' we leave behind and are landed from Her Majesty's ships of war the Scout and Boxer, in the ships' boats, and camped two miles up the Homatcheo River, on the late Mr Waddington's town site, and close to an Indian village—a den of scoundrels. Many of them, I have no doubt, had a hand in that sad tragedy of eight years ago—the Bute Inlet massacre. A few buildings still stand and are in fair repair. One of them is used as a storehouse or main depot. Three mules out of eight have stood the hardships of eight winters and are looking well and can be got hold of easily. Tools and material are to be found scattered all around. One of our friendly Indians (if I may so call them) informed me of his having stowed away in a cave from the thieving Eucaltas and bloodthirsty Chilcotans ten kegs of blasting powder and other things. A number of books the property, I have no doubt, of some of the murdered men, have been given to me by the same Indian. I will here enumerate them and also the names appended to them:

Robertson's History of Scotland—Charles W M Molt, Sept 8, 1845.

Arabian Nights—J Dingle.

Devereux—E C Britland, 5 Church street, Old Kent Road.

Arithmetic—James A Cooper.

Gipsy's Daughter—E C Britland, 5 Church street, Old Kent Road.

The Sorcerer's Daughter—Wm Mitchell, 2 vols Edward and Matilda, 2 vols Some Account of Myself, 1 vol Medical Botany, 2 vols Tyranny of Love, 1 vol Barbara Markham—Hensey.

11 Novels and Magazines—Arthur C Todd Hermit of Killarney—Alfred Lamperce.

The Colonies of Australia—W H Billings, and W Moberly, Toronto, 1858. B.

DELAYED DISPATCHES

California.

SAN FRANCISCO July 12.—John Hawkins, of the steamer Newbern, who died at the county hospital under mysterious circumstances, was found on the morning of the 2nd lying helpless on Gold street. He said he had been burned on board the steamer. He was not burned but had evidently been struck with a sand bag or some other weapon. A Coroner's inquest elicited no facts throwing light on the case.

In a meeting of the Committee of One Hundred to-day, J T Doyle spoke 50 minutes in favor of San Francisco buying the Southern Pacific railroad and having an independent road of her own, instead of going in with St Louis on the 35th parallel road. This proposition seems to be gaining favor. McRuer spoke for some time in favor of his resolution. W T Coleman spoke a short time. Sneath moved to expel Frank Pixley because he had not paid an assessment of $50, and declared he would not do it. Pixley demanded to know how many of the Committee had paid, which was not answered. Sharp words then passed and on the motion to lay Sneath's motion to expel Pixley on the table, the vote stood 32 ayes to 2 noes. The opinion is gaining ground outside that the labors of the Committee will end in nothing practical.

Dr E Hubell, from New York, committed suicide at the Occidental Hotel to-day by taking poison. He arrived here on the last steamer, and being out of funds, annoyed and down spirited his friends got him a free ticket home on Saturday. He was about 60 years of age.

Negroes have applied at all the public schools in the city for the admission of the children on Monday, and being refused, will bring suit by mandamus, to test the right to exclude them.

The unanimous nomination of Greeley and Brown caused some little stir here to-day, under the expectation that there would be a much stronger opposition, and a bolt having been confidently indulged in by many. The Bulletin says this action insures a close contest, and the sooner Republican leaders make up their mind to that fact the better.

P L Allis, a private detective, partner of Thos Ansboro, who has been arrested on a warrant for alleged libel on Edith O'Gorman, the escaped nun, applied to-day for a warrant for the arrest of Prof Auffrey, the agent or husband of the ex-nun, charging him with an assault with a deadly weapon: to wit, a pistol, committed, as is alleged, on the 26th of June. Auffrey is at Sacramento. The examination of Ansbro is set for Saturday.

The *Examiner* which had vigorously opposed Greeley up to to-day, will this evening hoist the names of Greeley & Brown and fully and unreservedly endorse the Baltimore and Cincinnati platform and ticket.

Edith O'Gorman, the escaped nun, and her made companion are said to have left the city rather unexpectedly.

Utah.

SALT LAKE CITY, July 10.—David Smith, youngest son of Jos. Smith, the Mormon Prophet, lectures to-night against polygamy. His presence excites the present church authorities but little.

The Mormon portion of the community endorse Greele 's nomination.

Experts report that both the English and Illinois mines contain large bodies of rich ore.

Eastern States

NEW YORK, July 9.—Investigation by the health officers to-day developed some startling facts, and some of the filthiest places in the world are in this city. In one block of tenements belonging to Anti Cruelty-to-Animals Bench, a sewer was found which the tenants said had been leaking into cellars for years.

Five bodies were found in the river here yesterday.

Admiral Drake's Descendants in Court —What is Told by an Old Church Register.

(From the N. Y. Standard, June 19th.)

The descendants of the "late Admiral Sir Francis Drake" were called upon to assemble yesterday morning at No. 361 Broome street, to consider the best means of obtaining the property of their great ancestor. About noon a delegation of the New Jersey Drakes arrived at the hall, and these being shortly augmented by the appearance of New York and New England Drakes, the meeting was duly called to order. At this time the second not have been more or less than thirty Drakes, in the hall. The Secretary said that an immense deal of information had been obtained since the last meeting, all of which went to make up a genealogical chain inseparably connecting the family of the great Admiral with the individuals present. He would begin by reading an extract from a church register of Birmingham, England, which extract had been greatly elaborated. A long-winded, bulky document, was then pulled out and read. It went to show that the New Jersey Drakes and the Weymouth (Mass.) Drakes were direct descendants of Thomas, the brother of Sir Francis. The reading seemed to give great satisfaction to the Jersey element of the family. During the meeting the Secretary frequently referred to a map which hung on the wall behind him. "Here," said he, "we have the pedigree of the Jersey Drakes, with Sir Francis at the head and Willard (pointing to a Drake in the audience) at the foot." At the close of the reading, a general discussion ensued as to the probabilities of eventually obtaining the estate left by the Admiral. The Jersey Drakes seemed most confident—the reading of the paper before alluded to seeming to them conclusive. No definite course of action was decided on, however, when the meeting closed and the prospective millionaires returned to their several homes.

MARAVILLA COCOA.—No breakfast-able is complete without this delicious beverage.—The *Globe* says, 'Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs Taylor Brothers discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopaths and valids we could not recommend a more agreeable or valuable beverage Sold in packets only, by all Grocers of whom also may be had Taylor Brother's Original Homœopathic Cocoa and Soluble Chocolate. Steam Mills—Brick Lane, London. Export Chicory Mills, Bruges, Belgium. mch12 1a wa

BRITISH COLUMBIA

ESQUIMALT GRAVING DOCK.

THE GOVERNMENT OF BRITISH Columbia are prepared to receive Tenders for the construction of a Graving Dock at the Naval Station Esquimalt Harbor, under the guarantee provided in the Twelfth Section of the Terms of Union of this Province with the Dominion of Canada, which Section is in the following words:

"The Dominion Government shall guarantee the interest for ten years from the date of the completion of the work at the rate of five per cent per annum, on such sums not exceeding £100,000 sterling, as may be required for the construction of a first class Graving Dock at Esquimalt."

The Dock to be of masonary, and of not less than the following dimensions:—

Length on floor 370 feet,
Do over all 400 feet,
Width between copings 90 feet,
Do on floor ..... 45 feet,
Do of entrance..... 63 feet.

To afford a depth of water on the sill of not less than 26½ feet at high water springs, and to be substantially constructed to the approval of Government, upon a site to be provided by the person whose tender may be accepted.

Further particulars as to plans, site, borings, &c. may be obtained from T. A. BULKLEY, Esq., Chief Engineer to Government, upon application in writing to the Chief Commissioner of Lands and Works.

Tenders must specify the time within which the Dock will be completed, and may be accompanied by drawings and descriptions, showing exact dimensions, materials and mode of construction of proposed Dock.

Tenders are to be sealed, superscribed "Tender for Esquimalt Graving Dock," addressed to the Chief Commissioner of Lands and Works, Victoria, British Columbia, and delivered at his office before noon of the 15th day of November, 1872.

Persons who may consider the above guarantee to be insufficient, are at liberty to tender on the basis such supplemental guarantee by the Provincial Government, or upon such other financial inducements as they may suggest.

The Government do not bind themselves to accept the lowest or any tender.

Each Tender must be accompanied by a Bond from the Contractor, and two sufficient sureties, for the payment of £10,000 to Her Majesty, Her heirs and successors, conditioned upon the due fulfilment of the Tender which it accompanies, provided it be accepted within three months from the said 15th of November.

By Command.

GEO. A. WALKEM,
Chief Commissioner of Lands & Works

Lands & Works Office,
Victoria, April 27th, 1872. ap28

APPOINTMENT.
